If I could raise my voice so as to carry it into every corner of the world I would say to every man: Become a member of the St. Vincent de Paul Society. Why is it so many men do not want to become members of this society? Is it that they are avaricious? God help them. Avarice, in my mind, is the worst vice that can be found in the world. ### CHRISTMAS TREES.

No house that has a child in it should be without a Christmas tree when Christmas eve rolls around. That is one of the pleasures I would fain have every little child, the highest and the lowest born, enjoy. And it does not cost much to have a Christmas tree-so little that every one with a home can well contrive one. And it will be a source of joy, both as to recollection and anticipation the year through. Moreover, the planning for it, the trimming it, will cheer the hearts of those who thus give themselves up to unselfish effort at making others time I assisted at preparing for and for four little children-how happy it made them, and how happy it made me. The only cloud upon my pleasure was the thought of all the ecstatic joy my own childhood had missed. As for them they carried the memory of it as a time of unexampled bliss and brightness with them throughout the year, nor ever once found aught but joy in recalling it and talking of it. Again, I say that no house that has a child in it should be without a Christmas tree when Christmas eve rolls around. If you can afford but a little one, two or three feet high, do not covet a larger tree, but make the small one as pretty as possible. Set it in an empty wooden box, fix it there securely and cover the box neatly with paper or glazed muslin, and stand it on a table where it will show off to the most advantage. Hang on it some apples, oranges, a few strings of snowy pop corn, some cotton balls, a few of the pretty gilt balls sold on the streets at eight and ten cents a string, a few candy toys, and light it with five or ten cents' worth of tapers, and you will think there never was such a radiance on earth before as the brightness of your children's eyes when they

### PRETTY CEREMONY.

On the feast of St. Agnes, January 21, beautiful ceremony takes place in the ancient church outside the walls of Rome. It consists of the blessing of the lambs, two pretty white ones being carried up to the altar by two ecclesi-astics, accompanied by torch and inceuse bearers. A hymn is sung in honor of St. Agues and the lambs are then conveyed to the Holy Father for a second blessing. They are then given to a con-vent of nuns who keep them until it is ime to shear them. There is a big decrease in the call for mugs and cups, and a decided increase in the amount of noise. This even grows sometimes, despite many recruits to the ranks of the sleepers. ### STORIES OF O'CONNELL.

The London Daily News tells two good stories of Daniel O'Connell, both of which will be new to most readers. He once remarked in a casual way to a pamphleteer of whose powers he had no very high opinion: "By the way, I saw a good thing in that pamphlet of yours the other day." "What was that?" asked the blushing author. "A pound of butter," was the crushing retort. O'Connell's great rival at one time was Sergeant Tom Gould (pronounced Gold). He was a confirmed old bachelor, but when eighty years of age proposed and was accepted by a maiden of eighteen summers. The engagement was announced by Gould to O'Connell in verse, oncluding thus:

So you see, my dear Dan, that though eighty years old, A girl of eighteen fell in love with old

It was dark night when Darby stretched himself on the ground in Hagan's meadow; the yellow rim of the moon just tipped the edge of the hills. The time passed mortal slow and it was an hour later when a hundred slow shadows, stirring up the mists, crept from the mountain way toward him. First he must find was Rosie among the herd. ring, except for a little gate, left open as though by accident, where the fairies could walk in.

But it wasn't an accident at all, only the wise plan of Maureen's; for nearby this little gap, in the outside wreath, lay a sprig of holly with a bit of twine tied to it. Then the twine ran along up to Darby's house and in through the window, where its end lay convaynient to his hand. A little pull on the twine would drag the stray piece of holly into the gap and close tight the outside ring.

It was a trap, you see. When the fairies walked in through the gap the twine was to be pulled, and so they were to be made prisoners between the two rings of holly. They couldn't get into Darby's house, because the circle of holly nearest the house was so tight that a fly couldn't get through without touching the blessed tree or its wood. Likewise, when the gap in the outer wreath was closed they couldn't get out again. Well, anyway, these things were hardly fin ished and fixed, when the dusky brown of the hills warned the neighbors of twilight, and they scurried like frightened rabbits to their homes.

Only one amongst them all had courage to sit inside Darby's house waiting the dreadful visitors, and that one was Bob Broderick. What vengence was in store couldn't be guessed at all, at all, only it was sure that it was to be more terrible than any yet wreaked on mortal

Not in Darby's house alone was the terror, for in their anger the Good People might lay waste the whole parish. The roads and fields were empty and silent in the darkness. Not a window glimmered with light for miles around. Many a blaggard who hadn't said a prayer for years was now down on his narrow bones among the dacint members of his family, thumping his craw and roaring his Pather and Aves.

In Darby's quiet house, against which the cunning, the power and the fury of the Good People would first break, you can't think of half the suffering of Bridget and the childher, as they lay huddled together on the settle bed; nor of the sthrain on Bob and Darby, who sat smoking their dudeens and whispering anxiously together.

For some rayson or other the Good People were long in coming. Ten o'clock struck, then eleven, afther that twelve, and not a sound from the outside. The silence and the no sign of any kind had them all just about crazy, when suddenly there fell a sharp rap on the

Through the window, in the clear moonlight, Darby marked weeds and grass being trampled by invisible feet, beyond the farthest ring of holly.

Suddenly broke a great cry. The gap in the first ring was found. Signs were this saying, an' was so mightily pleased plainly seen of uncountable feet rushing through and spreading about the nearer wreath. After that a howl of madness from the little men and women.
